3. It is requested that approval be granted for [REDACTED] to retain his TALENT clearance in his new capacity as Deputy Chief, Fundamental Science Division. This requirement is based on Guided Missiles information available in TALENT material which pertains to rocket fuel characteristics utilized in Soviet propulsion systems. Research support by Fundamental Science Division on this subject is required by Guided Missiles Division and adequate guidance for such research is impossible with no cleared supervisor in FSD. At the present time there are no positions approved for clearance in FSD/OSI and approval for one position for [REDACTED] is requested.
